

“Doc was larger than life. He was a very important role model and a great educator. He had great rapport and patience with his students and was able to impart important lessons to us well beyond music.”

*Diana and Peter Svahn, Class of 1959*

“It is difficult to express in words how important Doc Carney was to me. In high school, I learned everything about music from him, and spent much of my time (too much, according to some of my other teachers) in the Music Room. But Doc was more than a teacher – he also was a mentor, and a friend. Thank you, Doc.”

*Harry Geist, Class of 1965*

“He taught me one of life’s most valuable lessons: take the challenge and do the best you can with what you have. I can never thank Doc enough for his patience, encouragement, and drive. He will always be a symbol of excellence in my life, and the lives of many, many other students. Thanks Doc! ”

*Richard Persen, Class of 1965*
